

# Petition to the House of Commons in Parliament

**We, the undersigned residents of Canada, draw the attention of the House to the need for a comprehensive climate action plan, given:**

**THAT** over 97% of climate scientists agree that greenhouse gases are the primary cause of climate change;

**THAT** climate scientists have recommended that we reduce our emissions by 10% - 20% per year;

**THAT** carbon taxes are an effective tool in reducing greenhouse gas emissions, as demonstrated in British Columbia;

**THEREFORE, your petitioners call upon Parliament to:**

- bring in an increasing, revenue-neutral carbon tax, beginning at \$30 per tonne of CO<sub>2</sub>, increasing each year by at least \$10;
- return the taxes collected to all Canadian residents, ensuring that lower income residents are not disadvantaged.
